JL- As the Zodiac-prompted calls continued, late this p.m. there was one from WLAC, Nashville, one Bob Aitken, who qualifies as the least informed and least perceptive of those who did call. However, on learning that he was in Nashville, while I have reason to believe that a Zodiac-client station is least likely to be on Henry's audio bill of fare (can't use "fair" with Henry) I went out of my way to introduce you and our relationship. So, there was no secrecy (from us, that is) in Nashville. Whether or not the papers carried the AP story I don't know. Guess Jimmy will tell us. Aitkin alone asked for a copy of the book of all those who phoned from stations to date. I'm sending it. Already addressed & stamped. Hope he isn't like Henry about paying!...Nothing got mailed this p.m. because the girl who brought Bill home went in the opposite direction, away from the post office or any box, with first stop Harper's Ferry. Considering what happened to John Brom there, I figured it would be best to hold the mail! Best, JH 11/25/74
